RE: W - Elgin Water System
Rework Well No. 3
Add Well No. 4 1,500 gpm
Transmission & Distribution System
Pipelines

Dear Mr. Anderson:

Your plans to rework Well No. 3, complete construction of Well No. 4 and provide transmission and distribution system improvements all in the City of Elgin, have been reviewed and are approved subject to compliance with the following provisions:

1. The pipe that allows a well to be pumped to waste must be fitted with a vacuum breaker. This applies to both of the proposed wells.
2. This approval is also subject to compliance with the Standard Provisions on the attached sheet. Please submit your certification when this project is complete.

The plans, with "Provisional Approval" noted, are retained for our files.

Very truly yours,

Leo G. Farr, Jr.
